In later stages, more powerful summoned monsters can be called. **Battle Participation :** Up to four summoned monsters can participate in battle. Any beyond four are stored, and you can switch battle members via the menu. **Appearance :** In battle, summoned monsters appear on both the left and right sides of the player party formation. **Defeat :** If a summoned monster's HP reaches 0 in battle, it leaves the battle and cannot be revived. You must call it again at a summoning circle. **Healing :** Summoned monsters cannot recover HP or similar on the field screen; recovery is only possible during battle.
